Superfood is a marketing term for food with supposed health benefits as a result of some part of its nutritional analysis or its overall nutrient density. The term is not commonly used by experts, dietitians and nutrition scientists, many of whom dispute that particular foods have the health benefits claimed by their advocates. In 2007, the marketing of products as superfoods was prohibited in ...

With the Blood Type Diet, losing weight may be a happy side effect for some but it is not the main point. The primary weight-related benefit is that this diet helps your body find and maintain its ideal weight. For some, this means losing weight, naturally. For others, this may involve gaining or retaining muscle.
