

surgical pathology dissection an pdf

Acute DeBakey type I aortic dissection is a life-threatening emergency and requires immediate surgical intervention. For untreated DeBakey type I aortic dissection mortality increases up to 50% in the first 24 hours and 75% within two weeks after the initial event (). Although surgical techniques and perioperative care have significantly improved during the decades, mortality remains high and ...

Type A aortic dissection: the extent of surgical

Anatomical pathology (Commonwealth) or anatomic pathology (United States) is a medical specialty that is concerned with the diagnosis of disease based on the gross, microscopic, chemical, immunologic and molecular examination of organs, tissues, and whole bodies (as in a general examination or an autopsy). Anatomical pathology is itself divided into subfields, the main divisions being surgical ...

Pathology - Wikipedia

Dissection (from Latin *dissecare* "to cut to pieces"; also called anatomization) is the dismembering of the body of a deceased animal or plant to study its anatomical structure. Autopsy is used in pathology and forensic medicine to determine the cause of death in humans. It is carried out by or demonstrated to biology and anatomy students in high school and medical school.
