Supporting high quality research by the nation's leading scientists and engineers to improve EPA's scientific basis for decisions on national environmental issues.

Research Grants | US EPA

Sustainability is a priority interest for many organizations, and this is especially true at EPA. Sustainability isn't part of our work – it's a guiding influence for all of our work. Learn more about what EPA is doing and what you can do.

Sustainability | US EPA

Sustainable development is the organizing principle for meeting human development goals while at the same time sustaining the ability of natural systems to provide the natural resources and ecosystem services upon which the economy and society depend. The desired result is a state of society where living conditions and resource use continue to meet human needs without undermining the integrity ...
