Optical fiber is used as a medium for telecommunication and computer networking because it is flexible and can be bundled as cables. It is especially advantageous for long-distance communications, because light propagates through the fiber with much lower attenuation compared to electrical cables. This allows long distances to be spanned with few repeaters.

Optical fiber - Wikipedia

Internet access is the ability of individuals and organizations to connect to the Internet using computer terminals, computers, and other devices; and to access services such as email and the World Wide Web. Various technologies, at a wide range of speeds have been used by Internet service providers (ISPs) to provide this service.. Internet access was once rare, but has grown rapidly.

Internet access - Wikipedia

Administrative Law The Code of Federal Regulations (CFR) (AE 2.106/3:) Is in paper copy for the current year plus one. The CFR is the codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the federal government.
