A live-action animated film is one that combines live action filmmaking with animation.. Films that are both live action and computer animated tend to have fictional characters or figures represented and characterized by cast members through motion capture, and then animated and modeled by animators, while films that are live action and traditionally animated use hand-drawn or stop-motion ...

Live-action animated film - Wikipedia

Animation is a method in which pictures are manipulated to appear as moving images. In traditional animation, images are drawn or painted by hand on transparent celluloid sheets to be photographed and exhibited on film. Today, most animations are made with computer-generated imagery (CGI). Computer animation can be very detailed 3D animation, while 2D computer animation can be used for ...
