The Extractive Industries Transparency Initiative (EITI) is a global standard for the good governance of oil, gas and mineral resources. It seeks to address the key governance issues in the extractive sectors. The EITI Standard requires information along the extractive industry value chain from the point of extraction, to how the revenue makes its way through the government, to how it ...

La floculation est le processus physico-chimique au cours duquel des matières en suspension dans un liquide s'agglomèrent pour former des particules plus grosses, généralement très poreuses, nommées floes. Les floes s'édimentent généralement beaucoup plus rapidement que les particules primaires dont ils sont formés. La floculation peut avoir lieu naturellement ou peut être ...
